

Overview

Used for branch connection

Main line: insulated aluminium cable

Tap line: bare aluminium cable or bare copper cable

Connector body is made of aluminium alloy with high mechanical strength and ensures stable performance.

Special designed shear head bolt allows efficient installation within specific shear-off torque. Constant force ensures teeth penetrate cable without damaging mechanical strength of conductor.

Insulation sheath provides superior waterproof.

Standard: EN 50483-4, NF C 33-020, NF C 33-004
